

# Box Turtles

Reptile Care

**Temperature:**

Box turtles need a hotspot of 90° with a cooler side between 70°-80°.

**Habitat:**

Box turtles can be kept on a sterilized play sand and peat moss mixture, or sphagnum moss. The depth of the substrate should be at least 4" to allow for burrowing.

**Experience Level:**

Novice

**Lighting:**

UVB lighting is a must along with a heat lamp to accommodate their hotspot needs.

**Staple Diet:**

Crickets, Mealworms, Superworms, Hornworms, Greens (Timberline Reptile Salad) and Fruit

**Supplement:**

Waxworms (to add fat) and CalciWorms® (to add calcium in a natural method)
